Independent Auditor's Report

To the Members of the Board of Regents,
State of Iowa:

We have audited the accompanying statement of net assets, and the related statements of revenues, expenses and changes in fund net assets and cash flows, of the Student Health Facility Revenue Bond Funds (Bond Funds) of Iowa State University of Science and Technology (Iowa State University) as of and for the year ended June 30, 2011, which collectively comprise the Bond Funds' basic financial statements listed in the table of contents. We have also audited the financial statements of each individual fund of the Student Health Facility Revenue Bond Funds of Iowa State University as of and for the year ended June 30, 2011 presented in the combining fund financial statements in the supplementary information listed in the table of contents. These financial statements are the responsibility of the University's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

As discussed in note 1, the financial statements present only the Student Health Facility Revenue Bond Funds and do not purport to, and do not, present fairly the financial position of Iowa State University as of June 30, 2011 and the changes in its financial position and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Student Health Facility Revenue Bond Funds of Iowa State University as of June 30, 2011, and the changes in its financial position and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles. In addition, in our opinion, the combining fund financial statements referred to above present fairly, in all material respects, the respective financial position of each individual fund of the Student Health Facility Revenue Bond Funds of Iowa State University as of June 30, 2011, and the respective changes in financial position of each individual fund for the year then ended in conformity with U.S. generally accepted accounting principles.

In connection with our audit, nothing came to our attention that caused us to believe Iowa State University was not in compliance with the accounting requirements of the Board of Regents Resolution for the issuance of the Student Health Facility Revenue Bonds.

Iowa State University has not presented Management's Discussion and Analysis for the Student Health Facility Revenue Bond Funds that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the financial statements.

This report, a public record by law, is intended solely for the information and use of the officials and employees of Iowa State University, the members of the Board of Regents, citizens of the State of Iowa and other parties to whom Iowa State University may report. This report is not intended to be and should not be used by anyone other than these specified parties.

Our audit was conducted for the purpose of forming opinions on the financial statements taken as a whole. The supplementary information included as Schedules 3 and 4 is presented for purposes of additional analysis and is not a required part of the financial statements. The information included in the schedule of student fee receipts has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole. The information in the schedule of student enrollment has not been subjected to the auditing procedures applied in our audit of the financial statements and, accordingly, we express no opinion on it.

DAVID A. VAUDT, CPA
Auditor of State

WARREN G. JENKINS, CPA

Student Health Facility Revenue Bond Funds
Iowa State University of Science and Technology

Notes to Financial Statements

June 30, 2011

(1) Summary of Significant Accounting Policies

Reporting Entity

The Student Health Facility Revenue Bond Funds were created by resolution of the Board of Regents, State of Iowa which authorized the issuance of revenue bonds to be used to construct, improve and equip a Student Health Center on the campus of Iowa State University of Science and Technology. The revenue bonds are issued on behalf of the University.

The financial statements of the Student Health Facility Revenue Bond Funds of Iowa State University of Science and Technology (University) include only the financial position and operating activities of the Student Health Facility Revenue Bond Funds. These financial statements present only a portion of the funds of the University.

Basis of Presentation

Basic Financial Statements – The Statement of Net Assets, the Statement of Revenues, Expenses and Changes in Fund Net Assets and the Statement of Cash Flows report information on all of the activities of the Student Health Facility Revenue Bond Funds. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Net Assets presents assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories.

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Revenues, Expenses and Changes in Fund Net Assets demonstrates how net assets changed during the fiscal year.

The Statement of Cash Flows presents information related to cash inflows and outflows, summarized by operating, capital financing and investing activities.

Fund Financial Statements – In order to ensure observance of limitations and restrictions placed on the use of resources available to the University, the accounts of the University are maintained in accordance with the principles of “fund accounting” under which resources for various projects are classified for accounting and reporting purposes into funds that are in accordance with activities or objectives specified.

The University’s accounts and transactions include those related to the Student Health Facility Revenue Bonds issued by the University. These fund financial statements reflect only those accounts and transactions related to these bonds. These accounts and transactions are included as a portion of the University’s Plant Funds. Plant Funds are used to account for the transactions relating to investment in University properties. Plant Funds include the following funds: (1) Retirement of Indebtedness and (2) Investment in Plant. Retirement of Indebtedness, including the Sinking, Reserve, Excess and Arbitrage Reserve Funds established by the bond resolution, is comprised of amounts to provide for payment of principal and interest. Investment in Plant is comprised of amounts representing the total of buildings and equipment, all net of accumulated depreciation and the related liabilities.

The Current Fund, including the Operations Fund, is classified as a University Auxiliary Enterprise to account for transactions of substantially self-supporting activities that primarily perform a service to students.

The following funds are required by the bond resolution:

Operations Fund - The Operations Fund is used to account for all financial activity of the Student Health Center, except those to be accounted for in another fund.

Bond Sinking Fund (Sinking Fund) - The bond resolution provides all Student Health Center fees received and collected shall be segregated and deposited into the Bond Sinking Fund until there has been accumulated therein an amount equal to the full amount of principal and interest which will become due and payable on and prior to the next succeeding January 1 and July 1 on all Bonds then outstanding. The Bond Sinking Fund shall be used solely and only and is pledged for the purpose of paying the principal of and interest on the Bonds authorized and Bonds ranking on a parity therewith and for no other purpose.

Debt Service Reserve Fund (Reserve Fund) – The bond resolution establishes a Debt Service Reserve Fund as additional security for the Bonds. The Debt Service Reserve Fund will be funded in an amount equal to the lesser of (i) ten percent of the stated principal amount of the Bonds, (ii) the maximum annual payments of principal of and interest on the Bonds or (iii) 125% of the average annual principal and interest requirements on the Bonds (the “Debt Service Reserve Requirement”). The Debt Service Reserve Fund was funded at Bond closing in the amount of \$434,060. All moneys credited to the Debt Service Reserve Fund shall be transferred to the Bond Sinking Fund and used for the payment of the principal of and interest on the Bonds whenever for any reason the funds on deposit in the Bond Sinking Fund are insufficient to pay such principal and interest when due. All amounts in excess of the Debt Service Reserve Requirement shall be transferred to the Excess Fund.

Excess Fund - The bond resolution provides all Student Health Facility fees not required to be deposited into the Bond Sinking Fund be deposited into the Excess Fund. In addition, all excess amounts in the Bond Sinking Fund and Debt Service Reserve Fund shall be deposited in the Excess Fund. All moneys deposited in the Excess Fund shall be (a) transferred and credited to the Bond Sinking Fund whenever necessary to prevent or remedy a default in the payment of the principal of or interest on the Bonds or parity bonds or (b) transferred and credited to the Debt Service Reserve Fund whenever any deficiency may exist in the Debt Service Reserve Fund or whenever necessary to replace funds transferred from the Debt Service Reserve Fund to the Bond Sinking Fund. Until so used, moneys credited to the Excess Fund may be used for any lawful purpose, as determined by the Board of Regents, including without limitation the following: (1) to purchase Bonds or parity bonds prior to maturity and (2) to pay the cost of constructing, acquiring and improving the Student Health Center or extraordinary costs of operating, repairing or maintaining the Student Health Center.

Arbitrage Reserve Fund - Moneys credited to the Arbitrage Reserve Fund shall be used for the payment of arbitrage rebates and related administrative expenses.

Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and are reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles. Revenues are recorded when earned and expenses are recorded when the liability is incurred.

Purchases of facilities and equipment providing future benefits are capitalized and depreciated.

Cash, Cash Equivalents and Investments

The University deposits the cash of most funds in commingled bank accounts and makes disbursements from the combined cash balances. An individual fund's cash balance represents that fund's cumulative deposits to and disbursements from the University's bank accounts. For purposes of the Statement of Net Assets and the Statement of Cash Flows, the University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Investments are reported at fair value.

Accounts Receivable

Accounts receivable represent unpaid pharmacy services from customers and unpaid student health fees.

Inventory

Inventory is stated at the lower of cost (weighted average) or market.

Capital Assets

Capital assets are defined by the University as assets with an initial individual cost of more than \$5,000 for equipment or \$100,000 for buildings. Such assets are recorded at historical cost when purchased or constructed.

The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized.

Outlays for capital assets are capitalized as projects are constructed. During the year ended June 30, 2011, no interest costs were capitalized.

Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings	25-40
Equipment	5-15

(2) Cash, Cash Equivalents and Investments

The University's deposits were covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. In the unlikely event a bank fails, the State Treasurer first determines the amount of the loss and validates the amount of applicable FDIC insurance. He is empowered by this chapter to cover the remaining loss from the State Sinking Fund for public deposits in banks. If the balance in the State Sinking Fund is inadequate to pay the entire loss, he is empowered to make assessments against other banks to ensure there will be no loss of public funds. Cash in banks of \$4,691,596 is combined with other University funds. The money market balance for the Student Health Facility Revenue Bond Funds is \$1,521, which is considered to be a cash equivalent.

At June 30, 2011, the Student Health Facility Revenue Bond Funds had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Duration (Years)</u>
Fixed Income:		
U.S. Government Treasury Notes	<u>\$ 434,855</u>	<u>1.444</u>

Credit risk is the risk an issuer or other counterparty to an investment will not fulfill its obligations to the University. At June 30, 2011, the Student Health Facility Revenue Bond Funds fixed income assets were 100% government guaranteed.

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of the University's investment in a single issue. Except for U.S. Government investments, no one issuer represents 5% or more of the total assets.

Interest rate risk is the risk changes in interest rates will adversely affect the fair value of an investment. This risk is managed within the portfolio using the effective duration. It is widely used in the management of fixed income portfolios in that it quantifies to a much greater degree the risk of interest rate changes.

(3) Capital Assets

The following is a summary of capital assets activity in the Investment in Plant Fund for the Student Health Center for the year ended June 30, 2011:

	Balance July 1, 2010	Additions	Transfers	Deletions	Balance June 30, 2011
Capital assets, nondepreciable:					
Construction in progress	\$ 113,794	91,390	(120,269)	-	84,915
Capital assets, depreciable:					
Buildings	7,095,298	-	120,269	-	7,215,567
Equipment	310,402	-	-	(34,962)	275,440
Total capital assets, depreciable	7,405,700	-	120,269	(34,962)	7,491,007
Less accumulated depreciation:					
Buildings	(2,771,505)	(172,885)	-	-	(2,944,390)
Equipment	(207,796)	(8,378)	-	34,962	(181,212)
Total accumulated depreciation	(2,979,301)	(181,263)	-	34,962	(3,125,602)
Depreciable capital assets, net	4,426,399	(181,263)	120,269	-	4,365,405
Total capital assets, net	\$ 4,540,193	(89,873)	-	-	4,450,320

The cost of land is not reflected in the Statement of Net Assets. This land is included in other accounts of the University.

(4) Revenue Bonds Payable

The bonds, issued on July 1, 1995 for \$5,140,000, were used to construct, improve and equip a Student Health Center on the campus of the University. The bonds bear interest at rates ranging from 5.35% to 5.50% per year, payable semi-annually on January 1 and July 1. The bonds mature on July 1, in annual amounts as follows:

Year Ending June 30,	Principal	Interest	Total
2012	\$ 345,000	74,308	419,308
2013	365,000	55,046	420,046
2014	820,000	22,550	842,550
Total	\$ 1,530,000	151,904	1,681,904

Under the provisions of the bond resolution, these bonds will be retired solely from proceeds of Student Health Center fees and project income from Student Health Center operations. The bonds are also payable from, but not secured by, gift and other income. The bonds are subject to redemption prior to their respective maturities at the option of the Board of Regents, State of Iowa.

In accordance with the provisions of the bond resolution, all principal and interest maturing July 1 of each year shall be considered to be obligations of the then immediately preceding fiscal year. Therefore, such debt is reflected in the Sinking Fund.

At June 30, 2011, cash with paying agents of \$386,811 was on deposit in the Agency Fund of the University for the purpose of paying current obligations of bond principal and interest.

(5) Debt Service Coverage

Student Health Facility Revenue Bond principal and interest payments totaling \$428,623 due January 1 and July 1, 2011 require debt service coverage of a minimum of 120%, or \$514,348. Student Health Center fees of \$448,911, investment income of \$12,334 and excess funds available of \$1,058,147 provided debt service coverage of \$1,519,392, or 354% of the principal and interest due for the year ended June 30, 2011.

The debt service coverage for the current and two prior years is as follows:

Year Ended June 30,	Principal and Interest	Required Debt Service Coverage	Actual Debt Service Coverage	Required Coverage Percentage	Actual Coverage Percentage
2011	\$ 428,623	514,348	1,519,392	120%	354%
2010	431,278	517,534	1,489,076	120	345
2009	432,972	519,566	1,548,619	120	358
